

Date: 5-5-09

Student Name: Amelia Lawson

Grade: 9th

County: Hancock

State : GA

Parent Name: Angela Lawson

TESTIMONIAL FROM STUDENT / PARENT:

Achieve High Point has been an excellent resource to me. It allowed me to try difficult problems and show me step by step how to work them out if I got them wrong. It also refreshed my memory of ~~math~~ skills that I learned earlier in the school year. Along with that, I was also introduced to things that I had not seen in the classroom yet. Therefore, I found myself ahead in my math classes.

Parent: Achieve High Points has been a great asset to me as a parent. It provided a free tutorial service to my daughter. We live in one of the poorest counties in Georgia. This is also a very rural county and it is difficult to find someone to tutor students especially in Math. My daughter has developed a greater interest in Math since she started the program.
