Student Name: Whitney Moss
Grade: 10th
County: Baldwin
State : Georgia
Parent Name: Shonda Moss

TESTIMONIAL FROM STUDENT / PARENT:

I use to have trouble with some of my math until I start using achieve. I do the work on achieve and I understand it. When we get ready to start a lesson I take my first glance at it I already no how to do it. In my mind I say I did this on achieve. I be happy that I no how to do it. I tell some of my classmate that "this is easy, I did this on the computer." I be the first one to get finish with my work & it be correct. I go around the class to help other students out. The test we have over the lesson I always pass. Thank you achieve for helping me improve my grades and understand the math more.
